## CHANGING TRENDS IN OBSTETRICS

Dear Friends,

The new committee invites you to the first CME of the Academic year 2019-20.

The anatomy of women hasn't changed in thousand's of years but the science of childbirth has changed drastically. As obstetricians we try our very best to give a healthy baby & a healthy mother. Let us understand today if we have to change with the ever changing medical science or can we happily still say that whatever we learned in medical school still holds true.
